Course Overview:

This revolutionary course gives you an entire trading system built on a powerful, proven **Price-Based model** combined with a full **Time-Based Trading Model.**

By using **these Price-Based charts with a custom data series** (discovered by Jerry himself), this course teaches you how to command your charts to behave based on your needs—not the default market settings. With a data series that are **unavailable anywhere else in the world**, this is your gateway to trade like the top 0.1% of

Why It's in a League of Its Own

This isn't just a course — it's a **premium-level trading transformation experience**.

With a **minimum of 12 live sessions personally led by Jerry Sandhu**, you'll be immersed in his top-tier trading framework, learning directly from the mind behind a million-dollar strategy. These aren't generalized teachings — every class is **laser-focused on turning you into a sharp, confident, and profitable trader**.

You'll also receive **12 advanced-level classes** from our professional trainers to reinforce your understanding and build mastery step-by-step.

On top of that, the **6-month support system, free access to the Discord mastermind community**, and **bonus on-demand sessions** make this the **most complete, high-touch program available**.

This is where **elite traders are forged**. If you're serious about creating long-term wealth through trading — **this is the level you need to be at.**

Part I: Price Based Methodology
Break Free from the 95%
